

It has come to my attention that the National Association of Broadcasters' petition 04-160 would keep satellite radio stations from broadcasting localized content. I am opposed to this petition. I would like the option to choose for myself the best way to get my music and information and petition 04-160 would stop me from making up my own mind by regulating the airwaves for me. Again, I would like to oppose NAB's petition 04-160.
